## **BYV74 series**

### GENERAL DESCRIPTION

Glass passivated, high efficiency rectifier diodes in a plastic envelope featuring low forward voltage drop, ultra fast reverse recovery times and soft recovery characteristic. They are intended for use in switched mode power supplies and high frequency circuits in general, where both low conduction losses and low switching losses are essential.

## **PINNING - SOT93**

| PIN | DESCRIPTION |
|-----|-------------|
| 1   | Anode 1 (a) |
| 2   | Cathode (k) |
| 3   | Anode 2 (a) |
| tab | Cathode (k) |

#### **MECHANICAL DATA**

#### Notes

Refer to mounting instructions for SOT93 envelope.
Epoxy meets UL94 V0 at 1/8".

BYV74 series

### DEFINITIONS

| Data sheet status  |  |  |  |  |
|--|--|--|--|--|
| Objective specification This data sheet contains target or goal specifications for product development.  |  |  |  |  |
| Preliminary specification  | cation This data sheet contains preliminary data; supplementary data may be published later. |  |  |  |
| Product specification  | This data sheet contains final product specifications.                                       |  |  |  |
| Limiting values  |  |  |  |  |
| Limiting values are given in accordance with the Absolute Maximum Rating System (IEC 134). Stress above one or more of the limiting values may cause permanent damage to the device. These are stress ratings only and operation of the device at these or at any other conditions above those given in the Characteristics sections of this specification is not implied. Exposure to limiting values for extended periods may affect device reliability. |  |  |  |  |
| Application information  |  |  |  |  |
| Where application information is given, it is advisory and does not form part of the specification.  |  |  |  |  |

#### LIFE SUPPORT APPLICATIONS

These products are not designed for use in life support appliances, devices or systems where malfunction of these products can be reasonably expected to result in personal injury. Philips customers using or selling these products for use in such applications do so at their own risk and agree to fully indemnify Philips for any damages resulting from such improper use or sale.
